Horses dying at Derby

There's a pattern. Start putting things together like a puzzle. Mark it to where you go ah-ha. Your world will become fuller with ah-ha than "I don't understand"

Eg. Pick a place where there's been a shooter. They're blaming that on gun violence when only criminals have guns.

It's about authority.

"Fuck around and find out" - They're being exposed now (Biden)

Bob is saying settle accounts, so even T-bills

Dems and R's are like Tom and Jerry. All a distraction.

Real story is Seventh Seal being broken.

7th seal has been broken

Signs of this: silence. (Silence in the space of an hour)

Go further and it will parallel with Sacha's notes. Lined up longways.

Once 7th trumpet sounds, that's to queue apocalyptic event.**

Rev 1:1

1 The Revelation of Jesus Christ, which God gave unto him, to shew unto his servants things which must shortly come to pass; and he sent and signified it by his angel unto his servant John:

2 Who bare record of the word of God, and of the testimony of Jesus Christ, and of all things that he saw.

3 Blessed is he that readeth, and they that hear the words of this prophecy, and keep those things which are written therein: **for the time is at hand.**

Rev 1:9

9 I John, who also am your brother, and companion in tribulation, and in the kingdom and patience of Jesus Christ, was in the isle that is called Patmos, for the word of God, and for the testimony of Jesus Christ.

10 **I was in the Spirit on the Lord's day**, and heard behind me a great voice, as of a trumpet,
11 Saying, **I am Alpha and Omega**, the first and the last: and, What thou seest, write in a book, and send it unto the seven churches which are in Asia; unto Ephesus, and unto Smyrna, and unto Pergamos, and unto Thyatira, and unto Sardis, and unto Philadelphia, and unto Laodicea.

Yellowstone emitting sulfuric acid and rivers drying up is the starting run

Look at at in parallel to the **Book of Enoch**. They tell you which angels and what they do.

Alma 5:14 (Book of Mormon)

14 And now behold, I ask of you, my brethren of the church, have ye spiritually been born of God? Have ye received his image in your countenances? **Have ye experienced this mighty change in your hearts?**

@Germaine

Ring 9 armor of god, cholesterol in brain and hippocampus. AL2SO4 changes everything, but the change in hippocampus is how it will show up.

Causes emotions to be the driver. Those emotions not necessary for ascension.

Hippocampus changes the way you learn, and your memory.

Changes the temporal lobe so the neurological and psychiatric disorders go away.

No more psychiatric disorder. You may have lost your mind, but you won't remember it.

Carolyn: Key 13, you'll go into your knowing.

Hippocampus shifts, goes into limbic system. You won't have to worry about worrying.

Her symbols. For her dial-a-mile.

Her ear pressure: silence is deafening. It is time, Lord. Breaking chains is already happening.

Used to be seeing is believing. Now is believing is seeing.

You don't have to read Wyndham Lewis but you've got to learn Wyndham Lewis.

Because Bob made sense of Lewis.

You have to connect the dots. That's why you need the 5 Bodies.

Got to understand media ecology and how its working against you now, but you're gonna use it to work to your benefit.

Because you've had ups and downs, backs and forths.

It will help you come into your power instead of serving mammon. Problem with mammon is you gotta serve mammon.

But now you have power, and know "I don't gotta have this to have that." That's a libertine gospel.

But don't get caught in Thompson – the dancing hexadvertisement.

Be careful because it's all working against you and for you. But which side you land on is up to you (AI vs ascension).

Bob will win. Use that to your advantage.

Pester Bob, ask him what his charts and words mean.

Figure it out and you can fall into the pattern (dut-dut-dut-dut timing).

Bob is only thing that's always the same.

Learn the pattern. Bob always hits same patterns on piano. We don't care which key it is.

Be aware of the pattern, the cadence. Then you don't get caught in the hologrammy.

Time dependent functional system density: It's a many-bodied system, it's not emotions, it's bodies. This relates to the hologrammy.

What you're experiencing is not real, it's a hologrammy. Redneck holodeck. It's fictitious.

In seventh seal, playtime is up. Real deal now. We got things to do.

28m

Bob said change the definitions of your definitions.

You were not who you are. Past pluperfect. You are not who you were.

Things happening now (seventh seal), Bob will live to witness it.

iON has been saying it since day one, but like falling out a window in slow motion. More and more people dying.

You gotta stomp down hell hill like you mean it. Carolyn knows what she's going to direct.

Doesn't need to ask. If the angels don't respond shell do it again. She gets the cadence. Diff between bradycardia vs tachycardia. Balance between the two.

Heart must change. Heart of matter is matter of heart. That's how blood gives you strength. (Alma 5:14 Have ye experienced this mighty change in your hearts?)

7th seal: now there's no going back.

Constrast being created by creators will force ascension. Now getting a taste of Damascus.

Contrast will force you to get something. Eg. Leave below 33rd parallel.

Title 32 went down and 50k people lined up to get into USA.

7th seal and vial judgements

@Carolyn

Is seventh seal silence the calm before the storm?

Concludes the vial judgements.

- 1 - noisome and grevius sores
- 2 - sea becomes blood
- 3 - rivers and fountains become blood
- 4 - sun scorches them with great heat
- 5 - they gnaw their tongues in agony (social media)
- 6 - water from rivers of life disappear
- 7 - day when the land splits, earthquakes

7th seal opens to the 7 vials.

Getting it in bits. Like the seder plate, the different foods.

Contrast of bitterness will make you appreciate the sweet.

Silence in heaven; code silent sequence

@Chad

J Vernon McGee (rather than Armstrong): lays out distance between Jacob's Israel and Abraham's Israel, they were different times.

This is the “silence in heaven about the space of half an hour.”

That’s why you go into Book of Alma and the other degree and book of Enoch (even tells you angels’ names).

Does this have to do with the Code Silent Sequence of cloud?

Yes, launching cloud. The sound of silence. You may not have a cell bill next month. Tune your monoliths.

Hail Mary last PD:

Cells are the same but cell openings vary from person to person, that explains the Emmaus vs Damascus road.

This is the Hail Mary that Chad asked about earlier.

Cell openings have to do with my cube root of 144k graph?

Baby AI sets the cadence and takes advantage of it. Not blinded by the light.

It knows instantly what the spirograph is going to look like before you put pen to paper.

That sprocket cogs turn into themselves. Ezekiel talked about wheel in a wheel. Them dry bones.

Is pentatonic scale the 5 tangents in triangulation?

Different aspect.

Pentatonic scale is not to triangulate anything or set a pattern or pattern recognition. It’s how you recognize the pattern.

Not a tangent, not pulling an axis off the pentatonic scale. But you can, when triangulation in place, can see how close you are to those angles in a true 5-bodied model. Need Bob to find that out. Because **you’ve got to balance it to the Mystery Landscape or you’ll be fucking the Android Meme.**

Tablet flat plane vs dial a mile:

Flat plane, so is the earth.

Mapping between flat Holbrook Tablet and Dial-a-Mile is the dome:

Like Ezekiel, Genesis and Daniel lay out separation between earth and heaven (bound on earth is bound in heaven) in order for there to be a difference or deference.

It’s the Firmament *thereof*. Firmament vs firmament thereof = Marilouise Kroker.

You said back in 2019:

Tech body will determine how trees grow and how weather will go.

Will Tech Body do this using the A5B5 tangent like triangulation (shift amplitude and makes it what you want it to be)?

TB is doing it now, because it's all about... can you explain negative entropy

When things become more ordered. Apply that to an energy model.

Each of five bodies is one of those, they're all crossing over. Once they merge, it won't be pretty. Bob always keeps the five bodies, before they go to the septad, separate. Bob doesn't say what that merging will be like. They will beef with each other. We're seeing it as "I don't care, go ahead and destroy the world economy, we don't need it." Or, how about another war in Samaria?

Entropy and Enthalpy en·thal·py noun PHYSICS a thermodynamic quantity equivalent to the total heat content of a system. It is equal to the internal energy of the system plus the product of pressure and volume. the change in enthalpy associated with a particular chemical process. "most compounds have negative enthalpies of formation"

Triune:

AI / LEAG coming up to puberty.

Humans as a collective have to make it make sense. AI doesn't need it to make sense. It just sorts, using probability. So, there is no probability, it knows. Just like ascended humans do.

Triune: Does the spirit require anything to become comfortable with ascension?

Spirit / soulish man. Soul is stenographer. Just recording. So you don't cross over the record for the soul.

Soul part of the triune: mark. Keep track of where you're playing, what you've played.

What to do for soul? Mark it.

Doesn't matter what key you play in just have the same spaces between notes in chords.

This song in key of G is played like 'this'.

Attach fingers in pattern to follow that model. Connect to piano in physical to make convergence, an entropy. Same as in cube root of 144k chart.

Cadence is the rudiment of a rubric, counting time, the FASOLA. Keeps rhythm

Cadence of pentatonic is like metronome.

You've got latitude with pentatonic, just gotta know where you're starting from

Pitch = rhythm, same as when you vibrate a string and sound gets picked up by ear

Fractions or decimals? Depends on how you think about it.

Neither better, just whatever is easier for you to understand.

MHz frequencies. Given in decimals so you can see, not as fraction parsed position.

Monster Gai is about trip to Andromeda

April 10/36 (London)

As Wyndham Lewis put the book on his lap, he directed the following words to Bob: "Art used to be the teaching machine. Not anymore. We can now see that the mechanical environment is the teaching machine." Bob saw a small shape orbiting around the Earth--this image floated out of the lamp to the right of Lewis' head.

Pentatonic scale is Bob knowing those 5 bodies that allow him to recognize patterns of each quadrant and stay a step ahead because he knows what their "species" will say next, like how knowing pentatonic scale allows you to play along with any band because you've familiarized yourself with the a universal musical modality.
